Notes

HOST_* properties are representing the host I'm connected to and are available without a deviceTRUST client installed on the remote device DEVICE_* properties are representing the remote device and are only available if a deviceTRUST client is installed on the remote device Native RDP information for the remote device IP address are not available on Windows Phone and IOS.

Property Type

Session = This property is a session specific property and is valid for the lifetime of the user session

Dynamic = This property is a dynamic property and is checked for changes once per minute (can be defined)

Dynamic (Real Time) = This property is a real time property and gets immediately updated when the value has been changed

 $^{^{(1)}}$ Not available on Microsoft Server 2008 R2 when using Remote Desktop Protocol (RDP)

⁽²⁾ Not available when using Remote Desktop Protocol (RDP)
